## Bell System Releases Film On "Tomorrow"

Here is Tomorrow, a remarkable motion picture on the life of Alexander Graham Bell, has just been released by the Bell System for nationwide distribution to the general public, according to Southern Bell Manager Ron Laird.

Filmed on location near the houses and laboratories where Bell lived and worked, this 28 minute, 16 mm color film dramatizes many virtually unknown aspects of Bell's career.

"Everyone knows Mr. Bell invented the telephone," said Laird, "but how many people know he designed and built the first plane flown before the American public and an early iron lung?"

"And these things were just the beginning," Bell laid the groundwork for many developments that are in the vanguard of scientific achievement even now. For instance, he experimented with the hydrofoil, the telephone probe - a forerunner of the x-ray, and with voice transmission via light beams, which we are achieving today with lasers.

"The Bell System decide to make Here Is Tomorrow because we felt that wider knowledge of Bell's work can contribute substantially to a better understanding of today's world and its technology," Laird added.

Here Is Tomorrow was produced by Jack Denove Productions of Hollywood, and is available to the public through local Bell business offices, and to television.

## COUNTY ASSESSMENT

consideration. Following the hearing, the Department of Revenue will make its final decision. Property owners whose assessments exceed fair cash value will be provided an opportunity following the final date of this order to file an application for exoneration from that part of the increase which exceeds fair cash value as a result of this increase.

THAT'S US! Harold Henderson and M. R. Jeffress display the Fulton Bank's new "Master Charge" placard.

## FULTON BANK

(Continued from Page One)

card holder can stop at any store displaying the MASTER CHARGE decal and get one monthly bill for all purchases.

Jeffress further stated that there are no membership fees or dues necessary to become a MASTER CHARGE card holder. Jeffress explained that over 100 merchants in the Twin Cities area are to be contacted immediately and given an

opportunity to join the plan.

The First National Bank of Louisville operates the oldest MASTER CHARGE system in the United States and is assisting the Fulton Bank in launching the local operation.

It was estimated by banking officials that MASTER CHARGE will be operating in the Twin Cities by November. The plan may be obtained from the Fulton Bank.

## NOTEBOOK

(Continued From Page One)

has to be in constant control of his driving ability to avoid an accident at the crossing that intersects Highway 51-pass, West State Line and the Union City Highway.

There's a high hedge and a huge bush-on the left-hand side of the approach to the Derby that completely obliterates the vision of motorists trying to cross the by-pass, or turning on to Union City Highway.

I wonder if a caution light, a stop sign, or cutting down the bushes wouldn't be an ounce of prevention that might cause a ton of tragedy some day. When Ferry-Morse employees leave the plant in the afternoon the traffic is something of a nightmare of danger.

## FIELDS REUNION

(Continued From Page One)

lor, Mrs. Charles Reams, Miss Peggy Reams, Mr. and Mrs. Norman Terry, Mr. and Mrs. Robert Thompson, Mr. and Mrs. Hunter Whitesell, Mr. and Mrs. Robert Whitesell and children, Robin, Lillian, Betsy and Martha Whitesell, Mrs. James A. Willingham, Mrs. Don Sensing, Walt, Donna, Andy and Cathy Sensing, all of Fulton;

Mrs. T. O. Bigger of Tullahoma, Tenn.; Mrs. Harris Bondurant of Greensboro, N. C.; Mr. and Mrs. G. H. Dickey of Milan, Tenn.; Mr. and Mrs. G. N. Dickey and daughter, Dawne, of Memphis; Mr. and Mrs. Ples Fields of Hickman; Mrs. D. K. Galtney of Corinth, Miss.; Mr. and Mrs. Tom Dupree and daughter, Harriet Fields Dupree, of Lexington, Ky.; Mr. and Mrs. A. T. Thompson of Atlanta; Mr. and Mrs. Warren Thompson of Lexington; Mr. and Mrs. Jesse D. White of Madison, Tenn.; Mr. and Mrs. Roy Mead and children, Mary Hunter and Robert, of Orange, Calif.; Mrs. Mabelle Terry-Smith and Mrs. Mary Avera of St. Petersburg, Fla.

## PAYROLL TAX

(Continued from Page One)

been there. But do you think we should have lost time and pay to come and hear you pass a tax that you had already made up your mind to do?

The employees of the Illinois Central Railroad and a lot of other working people who have to pay this tax think you owe it to us to let us hear your side of the story at an open meeting that everybody knows about. It can't be there we can at least have a representative.

Some people are talking about a boycott of our local merchants. We are not for this yet, but we are for having you tell us yourself why you need the money and why you are again taxing the poor working man who can't afford another tax. This payroll tax is higher than the property tax on some of our homes. Is this fair?

Yours truly,

R. G. Carver  
A South Fulton resident

Jim Irby, Holiday Innkeeper is shown here enjoying the superb knife collection of his appreciated guest.

Photo by Elmer Stewart

## Knife-Collector Shows Large Assortment To Area Hobbyists

by Elmer Stewart

Charles A. Johnson of Louisville, a recent guest at the new Holiday Inn, was in this area recently showing his collection of rare pocket knives to Innkeeper Jim Irby.

Mr. Johnson, district manager for Hershey Chocolate Corporation, travels this territory, calling on restaurants and other food establishments. He spends much of his leisure time buying or trading for these old, old, very interesting and sometimes valuable, knives and has a collection of hundreds of them.

The knives Mr. Johnson showed Mr. Irby were collected in and around the Fulton area. The knife he is holding is quite rare, it is a "Circle O" Remington, with solid silver handles, and was given away by the local Coca-Cola Com-

pany as advertisement about 1938. It is now a real collector's item and is valued at more than \$70.00.

## BIG UNDERTAKING

"I suppose," said the recruit to his new chum, "you are going to do big things in civil life."

"I did that," was the answer. "I had a job washing elephants at the zoo."

## SUMMER SCHOOL TRIP

The seventh and eighth grade classes from South Fulton summer school visited Columbus Park recently. They went through the Civil War Hospital and crossed the river by ferry.

# Our New "TV Drive-In" Facilities Will Be Open For Business Starting NEXT TUESDAY, JULY 9th

Beginning next Tuesday, just drive in either from Mears Street or from Collins Street in the directions indicated by the arrows above. It is important to enter properly, since the TV and the pneumatic tubing are thus located at the window of the driver of the vehicle. Exit is made by driving through the building on to Mears Street.

This facility is located on our bank parking lot behind Baldrige's.

Our new TV DRIVE IN is the newest and most modern service in modern banking. When you drive up to the closed-circuit television screen you are in direct, personal contact with a teller in our bank by voice, by picture, and by pneumatic tubing for conveying money and papers.

From the privacy of your car you may:

- make installment payments
- make a deposit to your account
- make a withdrawal from your account
- obtain a bank money order
- make a Christmas Club deposit

—In fact, do anything here that you would ordinarily do at a teller's window inside our bank.

—There are no buttons to push. Just drive in and stop!

## Martin Boy Killed In Cycle Mishap

A 13-year-old Martin youth was killed and a companion seriously injured Saturday morning when an automobile ran into a parked motorbike at McGill and Todd streets in Martin.

Fatally injured was William Steven Riley, son of Mr. and Mrs. Bill Riley of Martin. He was the brother of Mike Riley, staff announcer for radio station WENK in Union City.

The injured youth, identified

as Carmel Maddox, suffered a concussion, leg fracture and other lesser injuries and was continuing to undergo treatment today in Martin's Volunteer General Hospital. His condition was listed as serious.

Martin police said the two youths were sitting on the motorbike talking when the cycle was struck by 1966 Chevrolet, driven by Mike Miller, 17, of Route 1, Dresden, and moving east on McGill. The motorbike was carried a considerable distance by the car and came to rest partially under the auto.

The Miller youth was charged with reckless driving.

## Southern Bell Today Becomes South Central

Today the Southern Bell Telephone and Telegraph Company officially became the South Central Bell Telephone Company in the area which encompasses Tennessee, Mississippi, Louisiana, Kentucky and Alabama.

A. B. Strayhorn, manager of the local telephone company, said South Central Bell was formed in December by Southern Bell "to more effectively cope with the tremendous overall growth in the South. Our big objective continues to be to provide reliable, growing and improving service and to be good citizens of our community."

Southern Bell will continue to operate under that name in Florida, Georgia, North Carolina and South Carolina. The two companies will be about the same size.

South Central Bell began its life today.

## NON-STOP BIG CAPACITY UNI-SYSTEM Self-Propelled Forage Harvester

Unmatched high capacity in-feed design gives this self-propelled forage harvester the edge over others . . . gives you non-stop haymaking in heaviest windrows (even through slugs that snap shear bolts on other makes.) That's only part of the story. This forage harvester is just one part of the NEW IDEA UNI-SYSTEM. With Uni-System, you invest in only one power unit . . . add your choice of 6 different interchangeable harvesting combinations for corn, soy beans, small grain, chopped forage and hay. Besides windrow pickup for Forage Harvester, you can choose row crop heads for 1, 2 or 3 rows. Want more information? Drop in . . . let's talk UNI!

## J and F Sales and Service

Joe Bolin, Owner

N. Washington St. --- Clinton, Ky.

## Meet Uni-System... THE BIG CAPACITY COMBINE THAT'S BUILT TO TAKE EAR CORN PUNISHMENT IN STRIDE

We call it a "corn country" combine because we built it, right from the start, tough enough to bull through the biggest yields and the biggest fields without a bit of strain. Rugged — from grain platform or cornhead to its self-unloading grain tank (70 bu. with extension). Switch from cornhead to grain platform in 30 minutes. Switch from Uni-Combine to picker, sheller or forage harvester in an hour.

- One of the heaviest cylinders in the business.
- Excellent "flywheel" action.
- Choice of 11 or 13-foot platform.
- Choice of cornheads: 2-row wide, 3-row regular or narrow.
- Big capacity strawwalkers, grain pan, cleaning shoe.
- Choice of interchangeable Power Units.

Uni interchangeability brings self-propelled harvesting within reach of 2 crop farmers. 3 models this year including new 401 cu. in. diesel. Uni-Harvesting units are built in 2 sections for convenient mounting or removal on front axle of Power Unit. Get the whole money-saving Uni story soon. Excellent financing.

## County Agents Pick Martin As President

Joe Martin, Obion County Agricultural Agent for the past five years, has been elected president of the Tennessee County Agents Association.

As president of the state's 95 county agents, Mr. Martin will preside at the group's annual meeting and at the quarterly director's meetings.

Mr. Martin succeeds Haywood Luck of Jackson, U-T Assistant Agronomist.

The election came last week during a five-day conference of extension personnel in Knoxville. Mr. Martin served the group as vice-president during the past year and for five years before that served as the organization's secretary-treasurer.

Mr. Martin is the son of the late Mr. and Mrs. George Martin of Kenton. Following his graduation from Kenton High School he attended U-T and Duke University before serving four years in the Marines in the Pacific Theater of operations during World War II.

Upon leaving the service he completed work on his B. S. degree at U-T in 1947.

Prior to coming to Union City Mr. Martin served as assistant county agent in Brownsville for 15 years.

He is married to the former Miss Joyce Freeman of Lawrenceburg, Tenn. They have three daughters—Betty Martin 17, Susan Martin 15, and Janice Martin 12.

Mr. Martin is a Rotarian and a 32nd Degree Mason. The Martins attend the First Baptist Church.

**Bride-Elect  
Is Honored  
With Luncheon**

— A bride-elect, Miss Judy Hoodenpyle, whose engagement was recently announced, was entertained at a luncheon at Holiday Inn Restaurant June 22. Hostesses for the occasion were Mrs. Joe Hall, Mrs. Wilburn Holloway, Mrs. Bill Burnette and Miss Sally Hall.

Guests were seated at a T-shaped table on which were arrangements of mixed summer flowers. Colorful bridal placecards marked the places of the guests.

Miss Hoodenpyle, bride-elect of Philip Andrews of Fulton, chose from her trousseau a yellow and brown linen dress with yellow accessories. A yellow corsage completed her outfit.

Invited guests were Miss Hoodenpyle, her mother, Mrs. Eugene Hoodenpyle, and Mrs. Charles Andrews; Mesdames Joe Holloway of Murray, Robert Van Doren, Charles Wade Andrews, Don Campbell, Ladd Stokes, Johnny Jones, John Hughes of Murray, John Burrow, David Pirtle, and Robert Bagwell; Misses Nancy Bushart, Nancy Treas, Carol Dunn, Jane Warren and Mary Grant DeMyer.

# Success: The Holiday Inn Story

These divisions came into being as a result of the do-it-yourself spirit that has played such a large part in the system's growth. As the franchise sales department sold more and more licenses, many problems began to arise. The task of equipping Holiday Inns with quality furniture and furnishings became tremendous. The desire for standards of quality at reasonable costs necessitated another do-it-yourself project, and the decision was reached to form Holiday Inns' own supply organization, which ultimately became Inn Keepers Supply.

Formed in 1957, Inn Keepers Supply Company now offers for sale every anticipated Holiday Inn need, including furniture, draperies, carpeting, lamps— even to the cleaning compounds and paints used in an inn.

Inn Keepers Supply maintains its own testing and research facilities, in order to recommend the best product

for doing a certain task — and at the right price. In fact, more than 10,000 items are now marketed that have been tested to meet Holiday Inn standards.

With more than 26,000 square feet of floor space, Inn Keepers Supply Company offers a complete decorating service for Holiday Inns, and is continually contracting to decorate and furnish other institutions, such as apartment buildings and fraternity houses, as well as independent motel and hotel installations. Inn Keepers has branch offices in Atlanta, Chicago and Los Angeles. All services of the company are available to any independent firm or organization.

Inn Keepers Supply was born of necessity. It has grown as Holiday Inns have grown, and is expanding daily. For example, orders for draperies from Holiday Inns and others have multiplied so rapidly that Inn Keepers has a full-time

department for designing and making draperies. And with the demand for use-tested products increasing, more and more items are being added that carry Inn Keepers Supply's own label.

Just as Inn Keepers Supply specializes in furnishings, another HIA division makes a specialty of furnishing kitchen and restaurant equipment. This is Merchants Hotel kind of utensil from the finest cutlery to the largest heavy-duty stove and appliance. Merchants Supply not only sells supplies of all kinds, but also handles the installation for Holiday Inns and other institutions including cafeterias, hospitals, etc.

Holiday Inns of America this year will distribute more than 10,000,000 directories of inn-locations in response to requests from the traveling public.

When it became apparent the directory needs would skyrocket, HIA again entered the

do-it-yourself field and formed Holiday Press. Today, this firm is one of the largest printing and lithography firms in the Mid-South, handling a complete line of office furniture and supplies. Holiday Press produces a large volume of color work, including travel brochures for Holiday Inns and printing for many commercial accounts.

With first-hand experience in equipping its own Inns and independent institutions through its supply divisions, HIA has reached another milestone. Now under construction in the Holiday City complex in Memphis is the Institutional Mart of America.

When completed in 1967, IMA will be the world's first market center exclusively for the institutional developer. Every product and service from architectural building design and construction to room furnishings and financing will be available at the mart.

When the Holiday Inn sys-

tem began to operate, Holiday Inns of America and franchised owners of Holiday Inns International throughout the U.S. joined together in establishing a policy which is of the greatest importance in operation of a Holiday Inn anywhere. This is the matter of receiving and sending requests for accommodations.

A good innkeeper always finds a room for the guest who is seeking accommodation. If he is sold out, he will find a room close by and reserve it for his guest and will also assure him of accommodation which may be available on the morrow if he wishes to return.

As the chain expanded in its early days, requests were made via T.W.X. installed in every inn throughout the system so that travellers, journeying from one area to another could make reservations in advance along in their route. The system was also invaluable to business men

## Two Obion Residents Killed Near Clinton

Tragedy continued to stalk area highways late Friday afternoon as four persons, two of them residents of Obion, were killed and a 10-year-old Obion girl critically injured in a head-on collision four miles south of Clinton, Ky., on U. S. 51.

The dead included Raymond Cardell Patterson, 45, bridge worker for the Illinois Central Railroad in Obion, and his wife, Mrs. Juanita Penland Patterson, about 46.

Mr. Patterson's daughter, Dixie Lee Patterson, 10, was treated for multiple injuries in Clinton and then rushed to Obion County General Hospital where today she remained in critical condition.

Also killed in the accident were a Florida couple who reportedly were recently married and were on a honeymoon trip. Kentucky State Trooper Richard Wright identified them as George Uhler, aged 76, and Mrs. Alice Uhler, 54. The accident occurred about 6:30 p. m.

Trooper Wright said Mr. Patterson was driving a 1966 Chevrolet sedan north on the highway while Mrs. Uhler was driving south in a 1961 Ford sedan.

The officer said evidence at the scene indicated the Patterson car ran off on the right shoulder of the highway and then veered back onto the highway and over into the southbound lane of traffic. He said his investigation was continuing.

The collision was head-on, Trooper Wright said. Both cars were demolished but both remained on the highway following the impact.

"If they had been wearing seat belts," the officer said, "I believe two of them would have survived."

Mr. and Mrs. Patterson were residents of Illinois most of their lives and had been living in Obion about one year. They were Baptists.

Mr. Patterson was born April 22, 1923 in Arkansas. He was a veteran of World War II and served in the South Pacific where he won the Purple Heart for being wounded in action.

He leaves his daughter and two sons, Cardell Patterson, with the Navy and stationed in Connecticut, and Stevie Patterson of Carbondale, Ill.

Mrs. Patterson was born in Caden, Ill., daughter of Mrs. Ella Bulet Penland of Rochelle, Ill., and the late Curtis Penland.

She leaves a son, Albert Wayne Pribble, and a daughter, Mrs. Derrel Culver of Obion.

The Pattersons were en route to Carbondale when the accident happened.

The bodies of Mr. and Mrs. Patterson were taken to King Funeral Home in Obion.

## Pageant Set For July 19

The search for the Union City area's 1968 "Our Little Miss" will be climaxed Friday night, July 19, when the beauty pageant is conducted at East Side Elementary School, beginning at 7 o'clock.

The competition, sponsored by Tara's School of Charm at 1163 Circle Drive, is open to children in both Obion and Weakley counties. The deadline for entries is Saturday, July 13.

Children will compete in two age groups—3 through 6, and 7 through 12. The younger group will compete in party dress and sportswear, with no talent required. Those competing in the older group will be required to exhibit a talent, not to exceed three minutes in length.

Local winners in both divisions will receive official "Our Little Miss" trophies, gold leaf certificates, crowns, banners and entry fees to the state pageant. Trophies and certificates also will be presented to the first and second runners-up and the winner in the talent competition.

Cut-of-town judges will be used.

The state pageant will be conducted in Memphis Aug. 9-10. Parents of children entering the local pageant are requested to contact Mrs. Neil Cooper at 1163 Circle Drive by telephoning 685-2926 after 4 p. m. Advance tickets are available.

## Cooper Defense Cut Bill Defeated

WASHINGTON — The Senate has defeated an amendment co-sponsored by Sen. John Sherman Cooper, R-Ky., to delete \$227.3 million from a military authorization bill. The money is to be used for construction of an anti-ballistic missile system.

## Miss Betty Faye Prince To Wed

Mr. and Mrs. John Robert Prince of Mayfield, Kentucky, announce the engagement of their daughter, Betty Faye, to William Edward Ingram, son of Mr. and Mrs. Carl Ingram of Water Valley, Kentucky.

Miss Prince is a 1968 graduate of Wingo High School.

Mr. Ingram, also a 1968 graduate of Wingo High School, plans to enter Murray State University this fall.

Maternal grandparents of the bride-elect are Mrs. Dora Eidson of Mayfield and the late Davis L. Eidson. Paternal grandparents are the late Mr. and Mrs. Robert L. Prince of Union City, Tennessee.

The prospective bridegroom's maternal grandparents are Lubie Green of Graves County and the late Mrs. Green. Paternal grandparents are Mrs. W. T. Ingram of Water Valley and the late Mr. Ingram.

The August third wedding will be solemnized at seven o'clock in the evening in the First Baptist Church at Mayfield. Immediately following the ceremony, a reception will be held in Fellowship Hall.

All friends and relatives of the couple are invited to attend.

Miss Prince

James Hargreaves invented the first spinning frame.

Needles and pins and thread all stay together where you can find them if you make a miniature pin cushion out of a spool of thread. Just stick a cotton cosmetic ball in the hole in one end of the spool, and keep pins and a needle there.

# Flurry Of Highway Firings Causes Dismay In Frankfort

A new flurry of Highway Department firings has caused some dismay in the Frankfort area, but state officials tend to belittle the impact.

"It may look large because the central office is affected," said Harold Finley, highway information director, "but the number is not momentous."

Apparently 125 or more em-

ployees have received catch-all form letters recently which tell them they have been terminated for at least one of four reasons.

James Melvin, an administrative assistant to Highway Commissioner William Hazelrigg, said 75 workers covered by the Merit System have been ousted from the central office. They may appeal through the Personnel Board.

An additional 35 to 50 employees not covered have been fired. They have no recourse.

Finley estimated that in the first five months since the Republican regime took over, 5,700 workers have left the Highway Department, a turnover considerably in excess of 50 per cent.

No breakdown was available on dismissals and resignations, but an undetermined number of resignations actually are under pressure or threat of dismissal.

Until recent weeks the bulk of Highway Department firings, probably several thousand, have occurred at other points in Kentucky.

Finley said the latest firings

resulted from a meeting of division directors in a continuing program aimed at slicing the agency's payroll by 15 per cent from its high mark of more than 9,000 last year.

Last month the head count stood at 8,262. The Republicans have replaced 4,200 of the 5,700 departing employees.

How long will the dismissals continue?

"As far as efficiency is concerned, forever," Finley said. "We don't anticipate too much more in the political field."

There were a few bloopers in the latest series of firings. Finley said a few names were selected erroneously and the employees taken back. He acknowl-

edged that some workers "in critical occupational areas" also were fired mistakenly and have returned.

Some victims reported these oddities:

—One said he was fired for hauling voters to the polls on election day, but could prove he was an election officer and thus required to be inside the polling place all that time.

—Two women reported they

were ousted for driving voters to the polls, but said they never had driver's licenses and could not drive.

—One reported he was fired for political activity during the Nov. 7 election although he was not hired until nine days after the election.

Finley said the form letters may not have specified by check mark which of four reasons the state cited for dismissal.

He indicated that if the political charges did not apply, the reason probably was inefficiency.

Among those dismissed was a high-paid woman employee who has been around since the previous GOP administration more than 20 years ago.

However, she was back on the job by the time a newsmen began to check on her firing, and no one offered any explanation or comment.

Notice to Rural residents around South Fulton, Tenn.:

## Want South Fulton Water Direct To Your Farm?

Do you want South Fulton city water direct to your farm? This could be possible for you under the South Fulton Rural Water Extension Program. The purpose of this program is to provide city water from the City of South Fulton to the residents of the surrounding rural area.

This does not mean that you must abandon your present well completely. If you so desire, you may maintain your existing well for farm use and use city water for household uses. The only stipulation is that these two system cannot be tied together.

The money is now available to construct this project. All that is needed is a sufficient number of customers to sign contracts for this water. The initial tap fee is \$75.00 and a minimum water bill of \$5.50 per month for the first 3000 gallons. The contract will explain this charge in greater detail.

These contracts may be picked up and signed at the South Fulton City Hall.

The number of customers signed up in a given area will determine the route the water line will take. Talk to your friends and neighbors and get everyone signed up in an effort to assure the most effective servicing of rural areas. Come by the South Fulton City Hall and pick up or sign your contract.
